Hemp Institute Video: Patrick suffers from spastic attacks – One joint makes all the difference for him

Vienna, February 19, 2015 – Patrick had a car accident 10 years ago and suffers from frequent spastic attacks. Watch this video from the Hanf-Institut with English subtitle which proves in 90 seconds that cannabis is a valuable medicine.
Natural cannabis is still illegal in Austria, with no exception for sufferers like Patrick. We aim to change this.
